GROW TREE

The life span of trees can range from ten years to a thousand years, and they are incredibly helpful to humankind. Trees provide the basic necessities of life such as food, shelter, air, water, and even clothes. They offer countless benefits, such as producing oxygen, providing flowers, fruits, and seeds, having medicinal leaves, providing shade, serving as homes for birds, protecting animals, preventing soil erosion, maintaining groundwater levels, bringing rain, assisting in climate change, and providing wood for furniture and firewood.

Similarly, the 'Grow Tree' project can also help us become healthy and wealthy.
